ARMY AVIATION is the official journal of the Army Aviation Association of America (AAAA). The views expressed in this publication are those of the individual authors, not the Department of Defense or its elements. The content does not necessarily reflect the official U.S. Army position nor the position of the AAAA or the staff of Army Aviation Publications, Inc., (AAPI). Title reg. ® in U.S. Patent Office. Registration Number 1,533,053.

SUBSCRIPTION DATA
ARMY AVIATION (ISSN 0004-248X) is published monthly, except April and September by AAPI, 49 Richmondville Avenue, Westport, CT 06880-2000. Tel: (203) 226-8184, FAX: (203) 222-9863, E-Mail: aaaa@quad-a.org. Subscription rates for non-AAAA members: \$25, one year; \$48, two years; add \$10 per year for foreign addresses other than military APOs. Single copy price: \$3.00.

POSTMASTER
Periodicals postage paid at Westport, CT and other offices. Send address changes to AAPI, 49 Richmondville Avenue, Westport, CT 06880-2000.

Briefings

Ronald V. Hite, Lieutenant General, U.S. Army, Retired, has been appointed Senior Vice President of **Cypress International, Inc.** Until his recent retirement, he was the Military Deputy to the Assistant Secretary of the Army for Research, Development and Acquisition.

Health benefits under **TRICARE** may be denied because the Defense Enrollment Eligibility Reporting System (DEERS) files weren't updated by the military sponsor, and have no record of a new spouse, or a child. Or, a claim may be paid by mistake because there was no record in DEERS of a divorce or death that took place, or of a regaining of Medicare entitlement. Then, the government is required by law to get the money back from the person to whom it was incorrectly paid, regardless of who was responsible for the mistake. You can head off these problems by contacting the nearest uniformed service personnel office for assistance with sending DEERS any changes to your home address, or to any family member's status (including the registration of newborns, which should be done as soon as possible after a child is born). Or, you may call the DEERS Support Office directly, at one of the following toll-free numbers: 1-800-334-4162. (California only); 1-800-527-5602 (Alaska and Hawaii only); or 1-800-538-9552 (all other states).

Henry L. Morrow, Chief, Power Systems Division, Aviation Applied Technology Directorate (AATD), Ft. Eustis, VA, recently received the Decoration of Exceptional Civilian Service Award from George T. Singley, III, acting director, Defense Research and Engineering, Office of Secretary of Defense during his retirement ceremony. Morrow received the award in recognition for his outstanding achievements and contributions to Army aviation throughout his employment with AATD and its predecessor organizations from 3 Sep 63 - 2 Aug 97.

Science Applications International Corporation (SAIC) has announced the sale of the "Simulation Products Division", which includes the **ELECTRO-LOAD** product line, to **Simulation and Control Technologies, Inc. (SCT)**. SCT is a New York based corporation comprised of personnel from both SAIC Simulation Products Division and Carlin Technical Services.

Magellan Technology, Inc. has announced the formation of a new, wholly-owned subsidiary, **Magellan Service Company**. Colonel Irving Monclova (US Army, Ret.) was appointed President and Chief Operating Officer of the company. COL Monclova's service included a tour of duty as Commander of the 1st Battalion, 14th Infantry Division (Republic of Vietnam 1968).

FRONT COVER

Paid Advertisement: Sikorsky Aircraft. A Sikorsky UH-60 Black Hawk helicopter from the 54th Medical Company at Ft. Lewis, Washington, conducts a hoist during a training exercise. Black Hawk helicopters give the U.S. Army the lifting power it needs as a valued asset -- in peace and war -- to Regular, Guard and Reserve forces. The enhanced lifting capacity of the Black Hawk helicopter provides Army Aviation with excellent multi-mission mobility. Caption provided by advertiser.

Consider This Warrior Prepared For Anything, Anytime.

©1996 Bell Helicopter Textron Inc. All rights reserved.

When it comes to the most versatile armed reconnaissance helicopter in the world, only one offers air transportability, survivability, weapons capability and marinization. It is the OH-58D Kiowa Warrior. ♦ Famed for its combat-proven long-range day and night target acquisition, the Kiowa Warrior can deliver an array of ordnance from selected combinations of HELIFIRE and STINGER missiles, Hydra 70 mm rockets and a .50 caliber machine gun. Its low maintenance demands give the OH-58D the highest readiness rate of any Army warfighting helicopter. The Kiowa Warrior's low acoustic and IR signature, coupled with its ability to be masked and still acquire targets, significantly reduces its vulnerability to hostile fire. What's more, two armed Warriors can be ready to fight less than 10 minutes after being off-loaded from a C-130. ♦ Projecting the Kiowa Warrior into the 21st century are improvements including increased engine performance, GPS, inertial navigation, high-rate processors, additional situational awareness features and multi-service digital communications. So for the combat power, versatility and preparedness needed in today's potential conflicts, nothing else compares to the OH-58D.

21st CENTURY COMBINED ARMS FIRES

Having emerged from the Cold War as the world's lone military superpower, America's armed forces stand at the threshold of a new millennium – a warfighting force without peer in military history. Venturing into an uncertain future, our challenge is to retain preeminence against likely foes in military operations that may range in scope from peacekeeping to conventional war.

To succeed in meeting this challenge, we must leverage the best capabilities and potentials of each of the armed services. This will be a difficult undertaking, for as Joint Vision 2010 counsels, *"we will have to make hard choices to achieve the tradeoffs that will bring the best balance, most capability, and greatest interoperability for the least cost."* Army firepower is one choice that satisfies these cost-benefit criteria – a choice we must optimize if we are to guarantee joint force dominance on the battlefields of the next century. At the heart of Army firepower stand two branches that share a special kinship as we head toward Army XXI: Army Aviation and the Field Artillery.

The 21st century battlefield. Advanced technology will dramatically alter the joint force's future practice of operational art, par-

Army Aviation and Field Artillery share a special kinship

ticularly in the manner in which a joint force commander organizes battlespace and synchronizes joint force operations within that battlespace. The primary catalysts for change relate directly to the nature of battlespace and the defining characteristics of *space and time*.

Viewed from a historical perspective, battlefield depth during the American Civil War was defined by the distance a cannoner could directly observe the impact of his cannon's rounds on a target – normally about two kilometers. The advent of the 155 millimeter cannon during World War I, the 8-inch gun during World War II, and the Army Tactical Missile System during Operation Desert Storm, extended the depth to which commanders could employ firepower – without committing or risking ground or air forces – to ranges of about 20, 30, and 100 kilometers, respectively.

The emergence of the helicopter as a prime mover of troops and equipment, and the validation of air assault operations as a viable operational concept during the Vietnam War gave U.S. forces degrees of mobility and flexibility unparalleled in previous conflicts. In order to ensure continuous fire support for committed ground maneuver

It's ready to earn
more stripes.

For more than 30 years, the T55 engine has given the U.S. Army's Chinook helicopters all the power they've needed, whenever they've needed it. Now, the upgraded T55-GA-714A is ready to carry the Chinook tradition into the next 30 years.

Today's army mission demands a versatile helicopter with more power, longer range and greater payload capability. It also requires a fleet of helicopters that are easy to maintain and efficient to operate.

The T55-GA-714A exceeds all of these requirements. It has 20% more power, 5% better SFC, 30% lower O&S costs, a projected 131% increase in unscheduled MTBR, and logistics support already in place. More important, the T55-GA-714A is ready to enter service now, with the core engine already field tested aboard the SOA MH47E.

Tough, reliable, cost-effective and ready to go now. The T55-GA-714A is the best solution for the Army's expanded mission requirements.

AlliedSignal
AEROSPACE

units, CH-47 helicopters airlifted howitzers into fire support bases carved out of the jungle. Aerial rocket artillery on modified Hueys and later on Cobra gunships provided an additional form of lethal and responsive firepower. Air mobility during Vietnam and later in Desert Storm enabled Army aviation to significantly expand the distances to which both ground forces and Army firepower could be delivered to achieve decisive results.

In a notional future war 2010, the combination of Army Aviation and the long-range Army Tactical Missile System provide the land force the organic capability to attack and destroy enemy centers of gravity throughout a battlespace approaching five hundred kilometers in depth. This will enable the land commander to attack the enemy at the time and place of his choosing, holding the enemy at risk everywhere, all the time within the land force's expanded area of operations. Paradoxically, the expansion of battlespace in the physical dimension has been paralleled by its compression in the time dimension. This phenomenon stems from a near-revolution in information, command and control, and targeting-related technologies during the latter part of the 20th century. In future war 2010, these technologies will empower commanders to make informed, critical decisions in near real-time, and enable a joint force to execute those decisions with tremendous speed and efficiency throughout the depth of its battlespace.

The challenge, then, becomes one of exploiting our technological edge in the all-important time-space equation. The Army of the 21st century and the artillery-aviation team in particular will be ideally suited to meet that challenge.

By 2010, technology will enable the Army

to extend its "operational reach" – the distance over which military power can be concentrated and employed decisively – to unprecedented depths. Armed with a combination of attack helicopters, long-range artillery delivery systems, lethal "brilliant" munitions, and a comprehensive, fully-digitized, state-of-the-art command and control system, the Army will both complement and enhance its ability to dominate the close fight by providing the joint force commander with an extremely responsive land force interdiction capability.

In order to win the decisive land battle, the land component commander must be able to effectively and efficiently employ joint firepower throughout his assigned area of operations. The Army Battle Command System (ABCS), the Army's umbrella architecture for the digital battlefield, provides automated command and control tools integrated with communications systems to support land operations from the strategic to the tactical levels. Most importantly, ABCS will provide seamless linkage to joint and multinational forces, enabling the land component commander to synchronize interdiction and maneuver within his area of operations into a unified, focused effort.

The effective application of combat power in depth requires detailed synchronization among a host of different joint organizations and staff agencies. The Deep Operations Coordination Cell, or DOCC, is the Army's command and control agency designed to perform this function. Comprised of representatives from fire support, aviation, intelligence, air defense, airspace coordination, electronic warfare, special operations and sister services, the DOCC is a battle management agency that synchronizes the fires of joint attack assets against planned targets and targets of opportunity.

When it comes to whiteboards—
Software makes the difference

Producing a full line of software to support our digital whiteboard, as well as offering customized software services, Hitachi Software offers you more than just an off-the shelf meeting board. Our 5 year warranty and full service maintenance agreement backup our offering to guarantee you insurance against systems failures in tough spots.

Call for evaluation copies of software or to set up a live demo.
See our web site at www.hitachi-soft.com (BPA Division).

As the ABCS system matures, future DOCC architectures will provide expanded automation and communication capabilities for supporting situational awareness, decision making, and deep operations planning and execution. Normally an integral part of a corps main command post, the DOCC may also deploy as part of a joint assault command post to assist in the command and control of early entry operations.

Coupled with advanced means of processing and disseminating information and intelligence, a wide array of national, joint, and Army reconnaissance, surveillance, and target acquisition assets will afford commanders at all levels unprecedented levels of situational awareness. The resulting information dominance will enable commanders to visualize the battlespace in detail, facilitate timely and effective decision making, and optimize the application of combat power at extended depths.

21st century tools. The land force centerpieces for the warfight will include an array of aviation and artillery systems. Among these are Apache Longbow, Comanche, ATACMS, and Crusader.

Army attack aviation combines both aspects of precision engagement and dominant maneuver with its ability to maneuver and deliver devastating fires throughout the battlespace. Equipped with a potent suite of weapons, state-of-the-art night vision, navigation, and targeting systems, the Apache Longbow affords a responsive, lethal capability to maneuver deep throughout the battlespace to acquire, designate, track, and kill its targets. Longbow integrates a millimeter wave radar targeting system with radio frequency guided, fire-and-forget Hellfire missiles. It can also execute target handover to other attack systems for engagement. In a broader sense, this standoff capability to

stealthily acquire and pass detailed information will allow a vastly enhanced ability for sharing battlefield situational awareness, thus contributing even more to overall force effectiveness.

The Comanche helicopter, the Army's newest air cavalry reconnaissance and light attack helicopter, combines the primary missions of armed reconnaissance and attack in a single platform. Incorporating a host of signature reduction and other active and passive self-protection measures, Comanche will boast unmatched survivability. From the target acquisition perspective, Comanche's integrated mission equipment system will share critical information digitally with other members of the Army combined arms team and with sister services and dramatically compress engagement times in the deep as well as close battles.

The combat-proven Army Tactical Missile System Block I missile, in service since Desert Storm, is the first of a family of five missile variants. The current Block I missile saturates target areas with 950 anti-personnel/anti-materiel fragmentary bomblets out to a range of 165 kilometers. It is deadly against soft targets such as rocket and missile launchers, air defense sites, command centers, and troop assembly areas. ATACMS Block I A will improve our capability to quickly and accurately attack critical, time-sensitive targets such as ballistic missile launchers out to 300 kilometers. Block I B will further extend this responsive killing power to nearly 500 kilometers. The Block II ATACMS will carry 13 brilliant anti-armor submunitions to a range of 140 kilometers, enabling precision kills against moving armored vehicles.

Incorporation of a pre-planned product improvement to the Bat submunition will (Combined Arms Fires - cont'd. on pg. 17)

1 Black Hawk. 2 Minutes. 3 Missions.

Air Methods, the nation's leading provider of air medical products, is extremely proud to have our uniquely designed Multi-Mission MEDEVAC System selected for the U.S. Army UH-60Q Black Hawk. ★ Our Multi-Mission MEDEVAC System converts from personnel transport to MEDEVAC in less than 2 minutes. Then converts from MEDEVAC to cargo transport in less than 2 minutes. All without removing or replacing any equipment. ★ We proved how Air Methods' Multi-Mission MEDEVAC System can fly a 6-member medical team into a forward area, convert to evacuate 6 wounded as fast as they can be on-loaded, and then convert to transport cargo back to the forward area! There's no dead-heading with the Air Methods System. One aircraft performs 3 missions. ★ Call Air Methods and we'll convert you in less than 2 minutes, too.

BATTLE FOCUSED AVIATION TRAINING

As our ever changing world encounters the challenges of the 21st century, America's Army will stay ready. We will be prepared to project our capabilities both rapidly and effectively in support of the national strategy. Readiness is achieved through challenging and realistic training, collectively executed, to a specified standard. Our Nation expects the Army to succeed and we will get it right the first time. As leaders, we must ensure that the sons and daughters that America has entrusted to us are thoroughly trained to standard and ready for whatever the full spectrum of today's missions demand.

In the July issue, we talked about the Combat Training Centers (CTCs) and their value to Army Aviation. In that article, we alluded to the importance of the preparatory training necessary for a unit to fully realize its peak of precision in collective execution. This article prescribes more to the building block training process—the crawl, walk, run approach to executing the unit training plan. Commanders are responsible for ensuring that collective training is a success. This is always a challenging task as units encounter numerous demands for their time. It is there-

The crawl, walk, run approach to executing the unit training plan

fore paramount that commanders understand "what right looks like," so that their training strategy remains focused, while simultaneously providing optimum expenditure of resources.

First and foremost, commanders must be able to selectively identify those

tasks that are essential to accomplishing their unit's wartime mission. With the establishment of the Mission Essential Task List, the unit can then proceed with its mission training plan. The framework for executing a unit training plan is: assess the level of training, train to standards, evaluate effectiveness of training/retrain those tasks not to standard, and sustain training.

Standards for Success. Unit warfighting proficiency can be assessed through brigade/battalion field training exercises, staff exercises such as division level warfighters, gunnery, team/company battle drills, and combat mission simulation. The key to this phase is objective assessment based on a standard. Only then can a commander tailor the unit's training program to meet its training strategy.

Training to standard means putting soldiers and leaders into situations that are mentally and physically challenging—they respond

well to these situations. Commanders must always find the standard during training and fight to sustain that standard. Train at the multi-echelon level, not just one group of soldiers, but at all levels. Include simulation such as Janus staff planning exercises, terrain board exercises, MILES gunnery, battalion STX/FTX, and finally maintenance training.

Training Strategy. The Combined Arms Training Strategy (CATS) embodies the concept of training to standard and should be an integral part of a unit's training plan. It is a useful tool in that it incorporates the ARTEP manuals, while embodying the concepts of the FM 25-100 series. It outlines the tasks, conditions, and standards, as well as the frequency of training required of a battalion/staff from the collective level down to the individual soldier. It also provides a detailed matrix that provides a quantita-

tative/qualitative cross walk between prescribed training events allowing commanders and their staffs to adjust necessary training events to meet the training resources at hand. Speaking of training resources, be sure you include CATS as you build your annual Flying Hour Program.

An external evaluation is the preferred method of training evaluation. It is through this unbiased evaluation that a unit can get a true picture of where it stands. Shortcomings will surface, aiding commanders in identifying weak areas—tasks that constitute retraining as the unit fine tunes its warfighting skills and ultimately reaches its objective endstate, whether it's a deployment to a CTC or deployment to a potential flashpoint somewhere in the world.

The recently executed series of Aviation Training Exercises conducted at the Aviation Center provide a clear illustration of training

2.5 MILLION

Our Safety Record is No Accident

★
WINNER OF THE 1996 AAAA MATERIEL READINESS AWARD
FOR OUTSTANDING MAINTENANCE SUPPORT

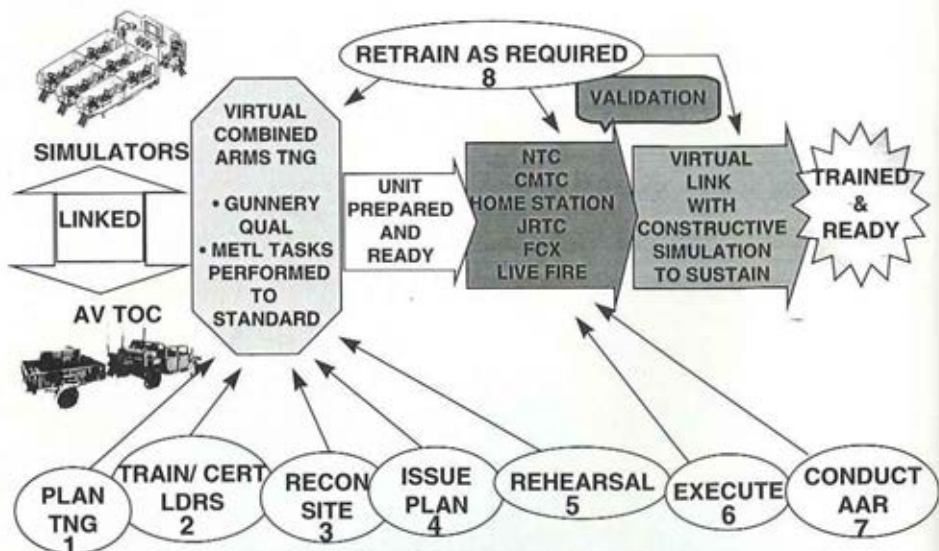

★
11-TIME WINNER OF AAAA MATERIEL
READINESS AWARD — *AN INDUSTRY RECORD!*

The lives of our nation's aviators and millions of dollars in equipment are in our hands. And, we leave nothing to chance. That's why DynCorp's Fort Rucker Division is the first contractor ever

to reach the milestone of two and a half million flying hours in nine years without a maintenance-related accident. It's an achievement we're proud of and a reputation we plan to live up to.

DynCorp

EIGHT STEP TRAINING MODEL

Figure 2

as part of the external evaluation process. The specific purpose of these multi-echelon training exercises was to prepare two separate aviation units for eventual deployment to Bosnia, in support of the Stabilization Force (SFOR) mission.

While utilizing the Aviation Test Bed and its virtual simulation capabilities, units and trainers focused on the Eight Step Training Model (Figure 1) as a vehicle to achieving the desired goal. This model defines a methodical process that provides a common-sense approach to achieve that "trained and ready" state, which we must constantly strive toward. Key to the model and the training process it portrays is the philosophy that we must first train and certify our leaders, as well as those facilitating the training. This step was paramount to ensuring units were adequately prepared to execute the remainder of the training model at the multi-

echelon level. From the onset of planning to the eventual After Action Review (AAR), the model proved invaluable to the entire focus of the training exercise. Thanks to the collaborative efforts of USAAVNC Subject Matter Experts, the NTC and CMTC, Headquarters FORSCOM, and the units participating, we can say with a clear conscience that our aviation forces are answering the call of our Nation, ready and trained for whatever they may face.

An example of what the Eight Step Training Model might look like for a Force XXI Aviation Battalion is found in figure 2. The end state is a Trained and Ready unit. If we conducted this training to prepare for a potential deployment, we must then include a method to sustain that readiness. Battle Focused Aviation Training is commanders' business. We have an Army training system that works—FM 25-100 is sound doctrine.

Put that doctrine to work and your unit will always enjoy success. By training to standard we will continue to provide the force highly motivated aviation soldiers, trained to world class proficiency, and capable of influencing all dimensions of the current and future battlespace.

* *

MG Petrosky is Aviation Branch Chief and CG, U.S. Army Aviation Center (USAAVNC) and Ft. Rucker, AL, and Commandant, U.S. Army Aviation Logistics School (USAALS), Ft. Eustis, VA.

Combined Arms Fires continued from pg. 10

greatly expand the target set and lethality of the Block II. The Block II A will extend the range of this means of precision strike to 300 kilometers, carrying six of the improved bat submunitions.

In 2005, the High Mobility Artillery Rocket System will deploy with, and support early entry forces with rocket and missile fires. HIMARS features a C130 aircraft-deployable, wheeled launch platform capable of delivering all ATACMS and MLRS family of munitions throughout the depth of the land force's battlespace.

21st century land force success will depend on the Army's ability to dominate operations not only in depth, but in the all-important close maneuver battle as well.

Crusader, the Army's next generation cannon artillery system, will provide the maneuver commander with highly accurate, near instantaneous firepower to shape the close

fight to our advantage. Specifically designed to leverage the potential of the digitized battlefield, Crusader will be the Army's most advanced land combat system and set the standard as the linchpin for the Force XXI Army.

Sense and destroy armor, known as SADARM, is a fire and forget, multi-sensor smart cannon munitions designed to detect and destroy armored vehicles, primarily self-propelled artillery. Each 155 millimeter SADARM projectile carries two sophisticated submunitions that detect and kill targets using a combination of dual-mode millimeter-wave and infrared sensors and explosive-formed penetrators.

Conclusion. Given these technologies, strikes by Army and other joint systems against selected high payoff targets and critical enemy capabilities throughout the battlespace will set the conditions for dominant maneuver by the joint force.

Balance will be the watchword for success on the 21st century battlefields – balance among operational concepts, balance among the unique capabilities of all services – and balance even among the complementary strengths of our Army's own branches. Striking the correct balance will be the key for the joint force to dominate any potential 21st century adversary and to succeed as the guarantor of our nation's interests.

(SEE OUR AD IN THIS ISSUE)

With over 12 million hours, the T700 is the most trusted turboshaft of our time.

Millions of flight hours and several battlefields later, the T700 continues to prove itself on the Army's Black Hawks and Apaches. The T700's operational experience is legendary. Ten thousand T700 family engines delivered. Twenty million flight hours. Twenty-four models of helicopters and fixed-wing aircraft.

The legend continues. The newest T700 - with over twenty percent more power - is in the test cell now. Combining the latest technology with all the reliable, durable features that made the T700 great, it will deliver the power the Army's helicopters need, any time it's needed.

AAAA Aviation Electronic Combat Symposium *"Focus on the Warfighter Today and Tomorrow"*

4-6 Nov 1997
Opryland Hotel
Nashville, TN
Call National Office
for Details
203-226-8184

The U.S. Army had the
foresight to order
the best ground
control approach
system in the world.

ATNAVICS. We mean to see that they get it.

We have consistently demonstrated our ability to achieve aggressive program requirements by driving reliability up, and cost down. The

ATNAVICS air traffic system is receiving our undivided attention and our 35 years of

experience delivering successful landing systems for the

U.S. military. The U.S. Army/Raytheon team will ensure

that coming home isn't the hardest part of your mission. For more information call

Raytheon Electronic Systems, ATC Marketing, 1001 Boston Post Road, Marlborough, MA

01752, USA. TEL 508-490-1445, FAX 508-490-2570.

Standard Apache System

875-line recorded picture

525-line scan-converted picture increases horizontal resolution dramatically and improves image definition during playback.

Now Apaches Can See What They've Been Missing!

The TADS/PNVS system is critical to the Apache's mission. And now TEAC and Merlin have teamed to produce a new scan conversion video system to provide a 40% improvement in image quality and resolution over the existing Apache video system. Plus, the system's Hi-8mm videotape format delivers twice the recording time (2 hours) using standard inexpensive videocassettes and standard commercial video playback equipment. So debriefs don't require special equipment — even for network news use.

But the real payoff is in combat. Where a 40% improvement in image resolution and a square pixel format can make the difference in finding, identifying, and acquiring your target. Yet TEAC's new system costs the same as the present Apache video recorder and is a drop-in, mil-qualified replacement. And, as with the other airborne video recorders that we manufacture for U.S. military aircraft, TEAC guarantees full product support for the life of your program.

Already demonstrated in Apache flight testing, TEAC and Merlin are ready to help the Apaches see what they've been missing!

Service Support: Anywhere, Any time, Any mission.

As a leader in aviation services, we know what it takes to support your equipment. We know because we've been there. Sikorsky provides a single point of contact utilizing a flexible *Total Program Approach* to support services that assures quality. Let Sikorsky's proven professional team tailor a services support program for your requirements.

Maintenance, Supply and Training Services Include:

Unit and Intermediate Depot Level
Crash Damage/Structural Repair
Facilities Construction &
Personnel Support Services
MWO Incorporation
Database of Skilled Personnel
Field Teams Available for
Deployment
Logistics Support for Aircraft
& Support Equipment

Maintenance Management Systems
State-of-the-Art ADP Systems
Automated Publications
Local Purchasing
USG Approved Procedures
Data Tracking &
Retrieval Systems
Linkage to OEMs
Integrated Training System for
Pilots and Technicians

Training Devices
OJT/Formal Classes

For more information on

with Buddy Start!

ARMY
QUALIFIED

When your aircraft is grounded in a remote and/or hostile area due to an APU or electrical failure, the lightweight Buddy Start™ provides pneumatic and/or electrical starting power from another aircraft. In emergency situations, the Buddy Start can **save lives, missions and expensive aircraft**. For information on Buddy Start kits for the H-60, AH64, CH47 and other aircraft, call Kaiser at (714) 250-1015, ext. 548.

VOICE AND DATA RECORDER • VADR™

SMITHS INDUSTRIES TOTAL SYSTEM SOLUTION

Smiths Industries systems increase the capabilities of pilots and their equipment. They improve the management of information in the air and on the ground, providing a tactical and competitive advantage. Smiths Industries is a development partner committed to innovation, investment and lifetime support – for commercial and defense priorities worldwide.

Please call for the Smiths Industries Aerospace Guide.
(USA): (616) 241 8643; (UK): (44-181) 457 8203.

Flexible configurations of voice and data recording offered by the Smiths Industries Voice and Data Recorder bring modern recorder technology to platforms previously limited by the weight and bulk of traditional recording systems.

The compact, lightweight, and affordable VADR™ is available in a variety of configurations.

USAA S&P 500 Index Fund

There are many expensive index funds.
We're not one of them.

You do the math.

If you're paying more than .18% for an Expense in virtually the same stocks, lower expenses S&P 500 Index fund, you may be may equate to higher returns. paying too much. The USAA **.18%** You could pay more for S&P 500 Index Fund has an an index fund, but why? expense ratio of only .18%, One of our professional account representatives would less than half the .47% average Ratio be happy to assist you. Please call expense ratio of all S&P Index funds.* Because each S&P fund invests for more information:

1-800-235-1896

USAA
INVESTMENT
MANAGEMENT
COMPANY

Currently, the Fund's total operating expenses are .18% with no reimbursement of expenses by the Fund Manager. The Manager is entitled to receive fees from the Fund only if the total annual operating expenses of the Fund and the Portfolio do not exceed .18% of the Fund's average net assets. The Manager will reimburse the Fund for any expenses in excess of this limitation until May 1, 1998. ■ A \$10 annual account maintenance fee will be charged on accounts with balances less than \$10,000 and may be higher or lower than that charged by other fund families. For more complete information about the mutual funds managed and distributed by USAA Investment Management Company, including charges and expenses, call 1-800-235-1896 or send for a prospectus. Read it carefully before you invest or send money. ■ Past performance is no guarantee of future results. ■ S&P® and S&P 500® are trademarks of The McGraw-Hill Companies, Inc. and have been licensed for use. **WE ARE REVOLUTIONIZING
AERIAL DELIVERY AND
CARGO MANAGEMENT SYSTEMS**

SKYHOOK^{TECHNOLOGIES} is the leader in aerial delivery and cargo management systems, revolutionizing resupply doctrines.

SKYHOOK^{TECHNOLOGIES} systems improve the safety, efficiency and productivity of helicopter operations by providing multiple payload capabilities.

SKYHOOK^{TECHNOLOGIES} has a system for every resupply need. From the Cargo Management System (CMS) with a maximum load capacity up to 36,000 lbs to the Light Aerial Delivery System (LADS) with a maximum load capacity of 12,000 lbs.

Whatever the need **SKYHOOK**^{TECHNOLOGIES} can meet it.

on target... at every price

EVANS & SUTHERLAND

When it comes to the cost of training for air and land warfare, Evans & Sutherland has changed all the rules. With everything from NT desktop solutions to high-performance, full-mission visual systems, E&S now offers innovative technology at every price point. The advantage is a superior level of interoperability that allows ground and airborne forces to complete a full range of missions in a virtual battlefield. The result is a realistic visual encounter that simulates the combat conditions training crews need to make crucial split-second decisions. **WHEN IT COMES TO DESIGNING, MANUFACTURING, AND INTEGRATING REAL-TIME, 3D TECHNOLOGY FOR A COMBINED ARMS TACTICAL ENVIRONMENT, THERE'S NO COMPETITION—E&S IS THE SOLUTION.**

Cobro Maintenance Science Scholarship

Parks College of Saint Louis University invites applicants for the Cobro Maintenance Science Scholarship to be awarded after November 1, 1997, for the semester beginning January 1998. The award will be for a minimum of \$12,000, renewable for up to three academic years.

**Financial need is not a criterion.
Personal motivation is!**

Application information is available from:

Dr. Charles C. Kirkpatrick, Dean
Parks College of
Engineering and Aviation
Saint Louis University
3450 Lindell Boulevard
Post Office Box 56907
St. Louis, MO 63156-0907
(314) 977-8203

Deadline for application:

November 1, 1997, for Spring 1998 Semester. May 1, 1998, for Fall 1998 Semester.

Applicants must have:

- Achieved a 3.3 grade point average out of a possible 4.0 and have completed 60 semester hours or the equivalent at the college/university level.
- Contributed more than 50 percent of the cost of their college/university education from their own earnings (including military benefits).
- Completed at least one full year's employment in the avionics or a related industry (including military service).

Preference will be given to candidates who are U.S. citizens and who demonstrate a knowledge of computer-maintained databases, statistical inference analysis and an understanding of the key role of maintenance science and administration.

Redstone Arsenal

The U.S. Army Aviation and Missile Command (USAAMCOM) and the PEO Aviation are in the process of relocating from St. Louis, MO, to Redstone Arsenal, AL. Data provided, especially telephone numbers and office symbols, are subject to change; some St. Louis telephone numbers are still reflected. ARMY AVIATION Magazine wishes to express its appreciation to Cindy Monahan, SGS, USAAMCOM, and Marsha Jeffers, PEO Aviation, for their assistance in compiling these data.

Life Support Equipment

MA-16 Inertia Reel

Provides impact protection with both strap acceleration and three-axis vehicle sensitivity. QUALIFIED to Mil-R-8236F and ready to INSTALL.

Restraint Systems

Single point release on dynamically qualified 4 or 5 point harness. Ready for use in helicopter crew, troop and air ambulance attendant seats.

Emergency Lighting

For both helicopter and fixed wing use. Activated by loss of A/C power, water or impact sensors. Qualified to Mil-L-85676(AS) and ready to install.

Visit our web site at <http://www.apc.net/koch> to learn more about our vacuum packaging, water activated life preservers & anti-drown devices and parachute canopy releases.

**THE U.S. ARMY
REQUIRED IT.**

**ACME AEROSPACE
SUPPLIED IT.**

**CHOSEN AS THE OEM FOR THE BATTERY AND
CHARGER SYSTEM ON THE AH-64D APACHE LONGBOW**

By selecting the sealed
Fiber Nickel-Cadmium
(FNC) battery system,
the U.S. Army realized
a 3% improvement in
RAM over the AH-64A.

Considering the size and
complexity of the Apache
Longbow, this is a
major accomplishment.

KEEP THE APACHE ON THE WARPATH LONGER.

Additional mission flexibility, enhanced combat capability, improved safety and lower O & S costs for the Apache.

The HM-025 *GUARDIAN*® *APACHE* Auxiliary Fuel System provides approximately 150 gallons of additional fuel for the AH-64A and approximately 130 gallons for the AH-64D. The system is mounted in the ammunition bay and is interchangeable with the ammunition storage magazine. Only minor aircraft modifications are required. After installation of fixed hardware, the auxiliary fuel tank can be installed or removed in less than 30 minutes. Fuel is carried in a MIL-T-27422B crashworthy, self-sealing bladder

which is pressure refueled simultaneously with the main tanks. The HM-025 *GUARDIAN*® *APACHE* gives commanders the flexibility of extending training flights or of carrying more munitions on the wing pylons for deep penetration missions.

For more information on providing mission flexibility for your Apache, call (602) 967-5185, fax (602) 968-3019, e-mail robertsonaviation@worldnet.att.net or write P.O. Box 968, Tempe, AZ 85280.

The **Tri-Max 30** acts as the first line of defense for fire suppression. It can be immediately available to the user at the site of the aircraft or refueling mishap. The **Tri-Max 30** would be primarily utilized by airfield personnel where its ease and speed of operation is of paramount importance.

The **Tri-Max 30** compressed air foam system (CAFS) is a portable high pressure redundant system with a UL rating 40A, 80B. It utilizes readily available and inexpensive Aqueous Film Forming Foam AFFF or Clean Agent Foam (Environmentally neutral & UL rated) and uses ordinary dish soap for training. A blanket of foam can be put over a flight line spill in a matter of seconds as a precautionary method. Reignition potential is nullified due to sealing off of vapors, it emulsifies with the petroleum on contact. Gusty winds 15-25 knots do not affect coverage. A distance of 80-100 feet puts the user at a safe distance of operation. The fire fighting and knock down capability is impressive; however, this system moves from a reactive fire fighting tool, to a pro-active fire prevention tool at the user level when properly trained. Logistical support is available wherever breathable air compressors are located, typically at any Fire Department.

Tri-Max 30 uses 2 aqua tanks, each an independent air source, that pressurize a 30 gal. tank which produces 600 gallons of usable foam at a 300 gallon per minute discharge capacity. The system is small, easy to maintain and service in a flight line or forward area refuel point and can be shot twice with air on system.

The **Tri-Max 30** Cold CAF technology and unit has been approved by the Department of the Army to be used as an alternative to wheeled flight line fire extinguishers specified in Army Req. 420-90.

BEST VALUE

Raytheon Aerospace Company provides quality worldwide support through its Contract Field Teams (CFT) - from aircraft and vehicle performance upgrades to battle-area maintenance and logistics. Raytheon Aerospace is ready to dispatch diversified, quality technicians to perform depot maintenance, field maintenance, and modification on-site for aircraft, engines, electronics, missiles, support equipment, tanks, vehicles, and other military systems.

Usually a CFT can be directed to a work site in a matter of hours after Delivery Order Notification. **Raytheon Aerospace CFT's** offer a responsive, cost-effective way to modify or maintain today's military equipment and systems.

Washington, DC 20003-1719

"There's a lot of pride
in the work we do here.

But then again,
look at the aircrews
we're doing it for."

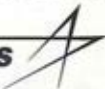

Andy Whitaker,
ATIRCM/CMWS
Program Director

At Sanders, protecting aircrews means mission success. We're now developing the Advanced Threat Infrared Countermeasure (ATIRCM) system, a next-generation laser-based countermeasure system, and the Common Missile Warning System (CMWS) to sense and defeat even the most advanced threats. This cutting-edge technology will ensure more pilots make it home, and their aircraft along with them. ATIRCM and CMWS are just two of the revolutionary products we're working on for military and commercial markets. And they're two examples of how Sanders is building inventions for life.

Dear Editor:

I read CWO James R. Oden's interesting and most informative article "*Bombs Dropped From Helicopter???*" [June 1997]. Since the article ended with an indication of uncertainty about what followed, I am one of those who can assure him his efforts were not wasted.

Along with others, the 1st Cavalry Division (Air Mobile) better known at the time as the 1st Air Cav, used the 834th Air Division's "Instant LZ" service many times. In fact, I still have the engraved nose cone from the 100th BLU - 82/B dropped in RVN on Project "Commando Vault". It was presented to me by BG (later MG) John Herring, Commander of the 834th.

The bomb used weighed 15,000 lbs with an explosive weight of 12,600 lbs. It was 4 1/2 feet in diameter and 11 1/2 feet long, increased to 14 1/2 feet by a 3 foot fuze extender to provide an above-the-ground burst. It was dropped from a C-130 at 8000 feet with the same uncanny accuracy of previous drops. This accuracy came from precision radar control at the USAF radar site in Bien Hoa. This drop, in support of our 1st Brigade, was exactly on target and created a three ship LZ. The LZ was on a hilltop in rugged jungle terrain about 2500 meters ENE of Rang Rang and about the same distance NNW of Dinh Quan in the III Corps area.

To paraphrase from a long time midwestern news commentator - "And that's the rest of the story."

MG George W. Putnam, Jr., Retired

Dear Editor:

This is just a passing additive to Mr. Lasser's letter on flight clothing [June 1997].

When I began fixed wing flight training at Gary Army Airfield, San Marcos, TX January, 1957, we were issued cast off Air Force flight suits for training. Once finished there we went to Ft. Rucker for tactical training. If I recall rightly, our flight clothing then was fatigues, boots, and hat. No helmets with built-in headset, just a hat and a boom mike.

After graduation and assignment to duty, standard flight clothing was fatigues and combat boots. Not much concern was given to the safety of flight crews in regards to their clothing or their hearing. This uniform continued on through my limited flying career until leaving the Army in 1961 with the exception of the helmet. The forerunner of the present helmet was introduced to us in 1959-60. I was introduced to the nomex clothing some 15 years later when I occasionally flew with the CTARNG as a senior army medic.

One more thing, in Korea, 1958, the uniform was as above except that we were allowed to use old Air Force flight jackets, even with fake fur collars, if you could find one. Most were taken over by the higher ups, including non-flight personnel.

I thought this might provide some insight on flight gear prior to the present.

CPT Wayne Walker, USAR Retired

ARMY AVIATION

U.S. ARMY AIRCRAFT SINCE 1947

Since 1947 - An Illustrated Reference

Stephen Harding

U.S. Army Aircraft Since 1947 is the only comprehensive, up-to-date guide to the 124 types of helicopters, fixed-wing aircraft and experimental flying machines used by the U.S. Army since 1947. After a concise yet thorough introductory history of U.S. Army Aviation, the author discusses each aircraft type used by the Army's air arm, which is the largest, most technologically advanced and most combat experienced force of its kind in the world today. Within each chapter the author includes information on aircraft serials, markings, weapon systems, operational history and other technical data. Illustrated with more than 220 color and black and white photographs, *U.S. Army Aircraft Since 1947* is the definitive reference source on its subject and a must-have volume for all military aviation historians and enthusiasts. [Schiffer Publishing Ltd. Size: 8 1/2" x 11", 264 pages, hard cover; ISBN: 9-7643-0190-X]

YEAR OF THE HORSE: VIETNAM

1st Cavalry in the Highlands 1965-1967

COL Kenneth D. Mertel (USA, Ret.)

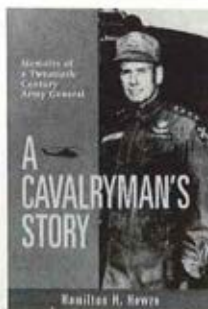

Year of the Horse: Vietnam is the day-to-day story of the Jumping Mustangs - 1st Battalion, Airborne, 8th Cavalry, of the 1st Air Cavalry Division. After describing the activation of this then revolutionary airborne division at Fort Benning, GA on 1 July 1965, COL Mertel gives a vivid picture of the building of his own Jumping Mustang Battalion, the rigorous training of officers and men, and, finally, the long voyage across the Pacific to Vietnam. Now the test. The answer came quickly and dramatically in a rapid succession of search and destroy operations. COL Mertel pays tribute to the many acts of heroism of his men, who lived, worked and fought together in some of the world's most inhospitable conditions. He also writes movingly of those who never came back. [Schiffer Publishing Ltd. Size: 6"x9", 384 pages, hard cover; 59 color photographs, 9 maps; ISBN: 0-7643-0138-1]

A CAVALRYMAN'S STORY

Memoirs of a Twentieth Century Army General

Hamilton H. Howze

A Cavalryman's Story is the memoir of a professional soldier, born into the lineage of West Point and recognized today as the father of U.S. Army Airmobile tactics and doctrine. With understated charm and humor, GEN Howze writes of his polo-playing years in a 1930s Army that still relied on horses, and then of the sudden, almost remarkable transition to armored divisions, when the U.S. entered WWII. It was in the mid-1950s that GEN Howze emerged as one of a handful of perceptive Army officers who recognized the potential of a sky cavalry. As the first director of Army Aviation GEN Howze promoted the concept to industry, the government, and the public. His vision came to fruition in the 1960s when he presided over the U.S. Army Tactical Mobility Requirements Board, known as the Howze Board, which proved the viability of sky cavalry in combat. *A Cavalryman's Story* provides an authoritative look at the forging of the modern Army and a wry perspective on the perennial absurdities of military life, whether in peace or war. [Smithsonian Institution Press. Size: 6"x9", 316 pages, hard cover; ISBN: 1-56098-664-6].

BOOK STORE

Breaking the

A New Design for
Landpower in
the 21st Century

Douglas A. Macgregor
Foreword by General Ryan

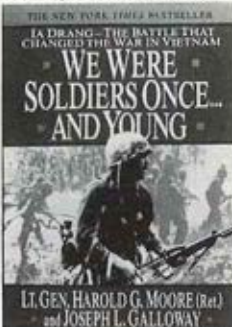

Publisher's description: This book is a blueprint for the future of the U.S. Army.

BREAKING THE PHALANX Douglas A. Macgregor

This work proposes the reorganization of America's ground forces on the strategic, operational and tactical levels. Central to the proposal is the simple thesis that the U.S. Army must take control of its future by exploiting the emerging revolution in military affairs. The analysis argues that a new Army warfighting organization will not only be more deployable and effective in Joint operations; reorganized information age ground forces will be significantly less expensive to operate, maintain, and modernize than the Army's current Cold War division-based organizations. And while ground forces must be equipped with the newest Institute weapons, new technology will not fulfill its promise of shaping the battlefield to American advantage if new devices are merely grafted on to old organizations that are not specifically designed to exploit them. [Praeger Publishers. Size: 6"x9 1/8", paperback, 283 pages, ISBN: 0-275-95794-2]

WE WERE SOLDIERS ONCE... AND YOUNG Harold G. Moore and Joseph L. Galloway

We Were Soldiers Once ... And Young brings the war back home with unforgettable stories of those who lost family members to combat. This devastating account rises above the specific ordeal it chronicles to present a picture of men facing the ultimate challenge, dealing with it in ways they would have found unimaginable only a few hours earlier. It reveals to us, as rarely before, man's most heroic and horrendous endeavor. [Harper Collins Publishers, Size 5 1/2"x8", 483 pages, paperback. ISBN: 0-06-097576-8]

AAAA Aviation Electronic Combat Symposium "Focus on the Warfighter Today and Tomorrow"

4-6 Nov 1997 - Opryland Hotel

Nashville, TN

Call National Office for details

203-226-8184

\$176,500 in Scholarships to Benefit AAAA Members

MG Robert S. Frix, Ret.

President, AAAA Scholarship Foundation, Inc.

As the new President of the Army Aviation Association of America (AAAA) Scholarship Foundation Inc. (SFI), and having just participated in this year's scholarship selection process, I would like to share a few thoughts with you.

On 18-19 July 1997, the Annual Scholarship Selection Meeting was conducted by AAAA's Awards Board under the direction of AAAA's Awards Chairman, MG John M. Riggs. I was personally very impressed with the selection process, and walked away from the whole event very proud to have participated. I would like to take this opportunity to tell you about this process. First of all, the amount of work and time that is done by the AAAA National Office to ensure these files are complete and prepared for the selection meeting is tremendous and can only be appreciated after sifting through this process. All the files to be voted, had the name blackened out, this ensured that the identification of the applicant (AAAA member or spouse, unmarried child or sibling of a current or deceased AAAA member), and the AAAA member relative was totally unknown. This was to ensure NO chance of bias with respect to rank or affiliation. This scholarship program is totally merit based. Financial background on each applicant is not a part of the rating criteria. The files were read by members of the Committee, who then voted each file individually by confidential numerical rating. After all files were read and scored by members of the selection committee, an Order of Merit List (OML) was assembled using the composite scores of each file. With the selection board still in attendance, the assignment of scholarships to applicants was then a simple matter of matching the top rated student file with the largest scholarship and so on, down the list, until all the available awards were used up. The very last thing to be done after assigning the files to the scholarships was to have the name of the recipient made known to the selection committee. I have to admit, it was quite an exciting and rewarding opportunity to take part in this selection event.

This year, this process resulted in more total dollars being assigned than ever before! AAAASFII awarded \$176,500 to the 81 students you see on the next few pages. Almost 50% of those who applied, won an award. Because the process is completely blind with respect to name and rank, the results show that our members are very competitive across all membership categories. You will see Enlisted, Warrant Officer, and Company Grade rank affiliated awardees were at an all time high of 29, or 36% of the total awards. Civilian related awards accounted for 22 awardees (13 DAC and 9 Industry), or 27% of total awards. Junior Field Grade Officers (Majors and Lieutenant Colonels) had 21 awards, or 26% of the total and Senior Field Grade (Colonels) accounted for 9 awards or 11% of the total. There were no Flag Rank affiliated winners. To also be noted is that imbedded in these statistics are the Spouse winners. The spouses, spread among the rank categories, were also at an all time high of 12, which doubled last year's results.

I am very proud to be the President of this program. It rewards excellence and the selection process has tremendous integrity and it is a terrific membership benefit to our AAAA members. Please join me in congratulating these outstanding achievers that you will meet on the following pages.

One last item. The new Corporation matching Fund Program is really taking off. We now have five companies who are donating \$10,000 each to be matched by the AAAASFII which will establish permanent scholarships in the Corporations' names. I'd like to thank Westar, DynCorp, Sikorsky, Army Aviation Publications, Inc., as well as our newest Matching Fund donor, Raytheon, for their generous support. We will soon have \$50,000 more in the SFI accounts compared to 1996, solely due to this program. If your corporation is interested, please contact the AAAA National Office for details.

AAAA National Scholarship-
\$15,000 (\$3,750 a year for four years)
Megan M. MacDonald, daughter of Mr. Hugh A. MacDonald (DAC), Media, PA - Univ. of Virginia.

GEN Frank S. Besson, Jr. Memorial Scholarship-
\$15,000 (\$3,750 a year for four years)
Christine E. Moulder, daughter of Mr. Christopher C. Moulder (DAC), Florissant, MO - Washington Univ.

LTG William B. Bunker Memorial Scholarship-
\$14,000 (\$3,500 a year for four years)
Krista G. Birocco, daughter of Mr. Gene A. Birocco (DAC), Fort Eustis, VA - Virginia Tech.

BG Robert M. Leich Memorial Scholarship-
\$5,000 (\$1,250 a year for four years)
Allan C. Huebner, son of LTC Stephen J. Huebner, Winston-Salem, NC - University of Notre Dame.

BG O. Glenn Goodhand Memorial Scholarship-
\$5,000 (\$1,250 a year for four years)
Kristin L. Buckstad, daughter of LTC Robert D. Buckstad, Woodbridge, VA - Univ. of Virginia.

Bryce Wilson Memorial Scholarship-
\$5,000 (\$1,250 a year for four years)
Andrew C. King, son of COL James C. King, Ret., Oviedo, FL - University of Florida.

AAAA National Scholarship (Aeronautical) -
\$4,000 (\$1,000 a year for four years)
Paul S. Rosell, son of Mr. James A. Rosell (DAC), O'Fallon, MO - Embry Riddle Aeronautical University.

Monmouth Chapter (Hogelin/O'Donnell Memorial) Matching Scholarship-
\$4,000 (\$1,000 a year for four years)
Michael K. Gill, son of Mr. William M. Gill (DAC), Eatontown, NJ - Rutgers Univ.

North Texas Chapter Matching Scholarship-
\$4,000 (\$1,000 a year for four years)
Joel J. Heney, son of Mrs. S. Jean Heney, Flower Mound, TX - Boise State University.

Central Florida Chapter Matching Scholarship-
\$3,000 (\$1,500 a year for two years)
Lori A. Yungbluth, daughter of LTC Richard L. Peters, Ret., Orlando, FL - University of Florida.

Lindbergh Chapter (Colleen Hipp) Matching Scholarship-
\$3,000 (\$1,500 a year for two years)
Scott M. Ferris, son of MAJ Daniel J. Ferris, Ret., St. Charles, MO - Colorado State Univ.

Monmouth Chapter (B. Howard Dean/Ken K. Kelly) Matching Scholarship-
\$3,000 (\$1,500 a year for two years)
Joy S. Carl, daughter of Mr. William H. Carl (DAC), Lakewood, NJ - Cedarville College.

Joseph P. Cribbins Scholarship-
\$3,000 (\$1,500 a year for two years)
Jason M. Ingalsbe, son of LTC Peter V. Ingalsbe, Farmington, NY - Worcester Polytechnic Institute.

Central Florida Chapter Matching Scholarship-
\$2,000 (\$2,000 for one year)
Sommer L. Cornell, daughter of LTC Jerry L. Cornell, Winter Springs, FL - University of Kentucky.

Monmouth Chapter Matching Scholarship-
\$2,000 (\$1,000 a year for two years)
Eric A. Balint, son of CW4 Vic Balint, East Brunswick, NJ - Rutgers University of Engineering.

Monmouth Chapter
(Kahl Winter)
Matching Scholarship-\$2,000
(\$2,000 for one year) David L. Carl, son of Mr. William H. Carl (DAC), Lakewood, NJ - Cedarville College.

Washington DC
(Robert F. Molinelli) **Matching Scholarship-\$2,000**
(\$1,000 a year for two years) Sarah K. McGill, daughter of COL William D. McGill, II, Burke, VA - Rice University.

Helen Cribbins Memorial Scholarship-\$2,000
(\$1,000 a year for two years) Leigh E. Hardwick, daughter of CW3 J. M. Hardwick, Jr., Ret., Enterprise, AL - Univ. of South Alabama.

Aviation Center Chapter Matching Scholarship-\$1,500
(\$1,500 for one year) Kristin D. Lindsey, daughter of Mr. G. Dwight Lindsey (DAC), Fort Rucker, AL - Univ. of South Alabama.

Aviation Center Chapter Matching Scholarship-\$1,500
(\$1,500 for one year) Crystal Gonzalez, daughter of CW4 Joseph Gonzalez III, Fort Rucker, AL - Armstrong Atlantic State University.

Lindbergh Chapter Matching Scholarship-\$1,500
(\$1,500 for one year) Pamela R. Horn, daughter of Mr. Charles I. Horn (DAC), St. Louis, MO - Saint Louis University.

Phantom Corps Chapter (Coldwell Banker) Matching Scholarship-\$1,500
(\$1,500 for one year) Jonathan E. Culling, son of MAJ Laurence J. Culling, Ret., Kempner, TX - Univ. of Texas at Austin.

Southern California Chapter Matching Scholarship-\$1,500
(\$1,500 for one year) Toni D. Howard, daughter of LTC Alfred N. Howard, Ret., Los Angeles, CA - Stanford University.

Jane & Wayne Phillips Memorial Scholarship-\$1,500
(\$1,500 for one year) Amanda E. Gerding, daughter of LTC Bernard F. Gerding, Scio, OR - Gonzaga University.

AAAA National Scholarship-\$3,000
(\$1,500 a year for two years) Brian W. Peters, son of Mr. Duane A. Wheeler, Litchfield Park, AZ - Arizona State University.

AAAA National Scholarship-\$1,500
(\$1,500 for one year) Taffee E. Cardenas, daughter of SSG Carlos M. Cardenas, Mesa, AZ - University of Notre Dame.

Air Assault Chapter Matching Scholarship-\$1,000
(\$1,000 for one year) Jared W. Moore, son of LTC Wayne A. Moore, Fort Campbell, KY - Tennessee Technological University.

Cedar Rapids Chapter Matching Scholarship-\$1,000
(\$1,000 for one year) Carol Sue Wyland, daughter of COL Stewart W. Wyland, Albuquerque, NM - College of William and Mary.

Colonial Virginia Chapter Matching Scholarship-\$1,000
(\$1,000 for one year) Michelle A. Trotter, daughter of Ms. Dee Ann Trotter (DAC), Williamsburg, VA - College of William and Mary.

Greater Atlanta Chapter Matching Scholarship-\$1,000
(\$1,000 for one year) Claire M. Smith, daughter of CW5 Gordon M. Smith, Jackson, MS - Mississippi College.

Iron Mike Chapter Matching Scholarship-\$1,000 (\$1,000 for one year) Amy K. Horner, wife of WO1 Terry L. Horner, Fayetteville, NC - Fayetteville Technical Community College.

Iron Mike Chapter Matching Scholarship-\$1,000 (\$1,000 for one year) Doyle D. Broome, III, son of LTC Doyle D. Broome, Jr., Sanford, NC - Western Carolina University.

Edwin A. Link Memorial Chapter Matching Scholarship-\$1,000 (\$1,000 for one year) Stephanie A. Randolph, daughter of Mr. Michael S. Randolph, Johnson City, NY - State University of New York at Geneseo.

Monmouth Chapter (Ablett/Gobel Memorial) Matching Scholarship - \$1,000 (\$1,000 for one year) Mildred L. Baggott, wife of SGT William R. Baggott, Columbus, NJ - The College of New Jersey.

Potomac Chapter Matching Scholarship-\$1,000 (\$1,000 for one year) Kelly M. Newsome, daughter of COL Charles H. Davis, Gaithersburg, MD - University of Maryland.

Potomac Chapter Matching Scholarship-\$1,000 (\$1,000 for one year) Maria L. Jonas, daughter of COL Larry M. Jonas, Ret., Alexandria, VA - Randolph-Macon College.

Tennessee Valley Chapter Matching Scholarship - \$1,000 (\$1,000 for one year) Thomas C. Harrison, son of COL Thomas M. Harrison, Huntsville, AL - Southern Methodist University.

CW3 Stephen A. Hansen Memorial Scholarship-\$1,000 (\$1,000 for one year) Jennifer L. Meisberger, daughter of CPT Theodore Meisberger, Ret., Gig Harbor, WA - Univ. of Puget Sound.

Army Aviation Publications, Inc., Corporate Matching Scholarship-\$1,000 (\$1,000 for one year) Holly B. Maynard, daughter of Mr. Charles B. L. Maynard, Wallingford, CT - Syracuse Univ.

DynCorp Corporate Matching Scholarship-\$1,000 (\$1,000 for one year) Laurie A. Hyman, daughter of Mr. Marshall J. Hyman, Reston, VA - University of Maryland.

Igor Sikorsky Memorial Corporate Matching Scholarship-\$1,000 (\$1,000 for one year) Kelly L. Maynard, daughter of Mr. Charles B. L. Maynard, Wallingford, CT - Tufts Univ.

Westar Corporate Matching Scholarship-\$1,000 (\$1,000 for one year) Sarah E. Civili, daughter of Mr. Paul P. Civili, Jr. (DAC), St. Louis, MO - Bellarmine College.

AAAA Spouse Scholarship-\$1,000 (\$1,000 for one year) Yail C. Gregory, wife of 2LT Eugene J. Gregory, Clarksville, TN - Austin Peay State University.

AAAA Spouse Scholarship-\$1,000 (\$1,000 for one year) Brenda M. Johnson, wife of WO1 Christopher A. Johnson, Fort Rucker, AL - Troy State University.

AAAA Company Grade Officer Member Scholarship-\$1,000 (\$1,000 for one year) CPT Jeffrey A. Walsh, Converse, TX - St. Mary's University School of Law.

AAAA Company Grade Officer Member Scholarship-\$1,000 (\$1,000 for one year) CPT Ronald G. Shashy, Ocala, FL - University of South Florida.

AAAA Warrant Officer Member Scholarship-\$1,000 (\$1,000 for one year) CW2 Thomas V. Higgins, II, Fort Rucker, AL - Embry Riddle Aeronautical University.

AAAA Warrant Officer Member Scholarship-\$1,000 (\$1,000 for one year) CW2 Lawrence S. DeGroff, Fort Rucker, AL - Embry Riddle Aeronautical University.

AAAA Enlisted Member Scholarship-\$1,000 (\$1,000 for one year) SGT Stephen J. Hagerty, Corpus Christi, TX - Embry Riddle Aeronautical University.

AAAA Enlisted Member Scholarship-\$1,000 (\$1,000 for one year) SPC John W. James, Wahiawa, HI - Utah State University.

AAAA Department of the Army Civilian Member Scholarship-\$1,000 (\$1,000 for one year) Steve D. Sabillo (DAC), Corpus Christi, TX - Delmar College.

AAAA National Scholarship-\$1,000 (\$1,000 for one year) Moriah A. Bauer, daughter of Mr. Ronald A. Bauer, Philadelphia, PA - Loyola College.

COL Jack Dibrell Memorial Scholarship-\$1,000 (\$1,000 for one year) Jennifer E. Burchett, daughter of LTC Floyd R. Burchett, Ret., Battle Ground, IN - Purdue University.

Bill Hawkins Memorial Scholarship-\$1,000 (\$1,000 for one year) Sonja A. Cortes, daughter of CPT Esther Muskopf, Woodbridge, VA - Rutgers State University.

COL Donald F. Luce Memorial Scholarship-\$1,000 (\$1,000 for one year) Jessica A. Paramore, daughter of LTC Jerry S. Paramore, Ret., Macon, GA - University of Georgia.

Charles E. Herschbach, Jr. AAAA Life Member Memorial Scholarship-\$1,000 (\$1,000 for one year) Jennifer L. Enselek, daughter of CW2 Donald H. Enselek, Ret., Baytown, TX - Univ. of Texas at Dallas.

Hugh E. Walker AAAA Life Member Memorial Scholarship-\$1,000 (\$1,000 for one year) David L. Mand, son of Mr. Lawrence R. Mand, New Albany, IN - Purdue University.

AAAA Upperclassman Scholarship-\$1,000 (\$1,000 for one year) CW2 Jack V. Rogers, II, Ret., Stephenville, TX - Tarleton State University.

AAAA Upperclassman Scholarship-\$1,000 (\$1,000 for one year) Tracy M. Braddy, daughter of COL William L. Braddy, Jr., Fort Campbell, KY - Univ. of North Carolina at Greensboro.

AAAA Upperclassman Scholarship-\$1,000 (\$1,000 for one year) Megan E. Wasiak, daughter of LTC(P) Joseph E. Wasiak, Jr., Carlisle, PA - University of Notre Dame.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Nicholas J. Liivak, son of LTC Heldur Liivak, Hampton, VA - Virginia Commonwealth University.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Lucille P. Paulino, wife of CPT Kenneth P. Paulino, Fort Rucker, AL - Troy State University.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Jennifer G. Nelson, wife of 2LT Ross F. Nelson, Enterprise, AL - Troy State University.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Linda H. Murray, wife of CSM Rodney E. Murray, Jacksonville, FL - University of North Florida.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Rebecca S. Mullin, wife of CPT Patrick J. Mullin, Waipahu, HI - University of Hawaii.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Mitchell A. Klink, son of Mr. Ralph R. Klink (LTC, Ret.), St. Louis, MO - Rhodes College.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Theresa M. Sliwiski, daughter of MAJ Ralph M. Sliwiski, Fort Leavenworth, KS - University of Kansas.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Kimberly L. Patro, wife of SSG Michael S. Patro, Fort Knox, KY - University of Louisville.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Kelle G. McGill, daughter of LTC Jack McGill, Ret., Shrewsbury, NJ - Southern Methodist University.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Louis W. Lento, Salina, KS - Kansas State University.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Cecilia L. O'Connor, wife of SSG Jonathan C. O'Connor, Newport News, VA - Christopher Newport University.

AAAA Upperclassman Scholarship - \$1,000 (\$1,000 for one year) Susan M. Tomaine, sister of Robert M. Tomaine (DAC), St. Charles, MO - Georgetown University.

AAAA Graduate Scholarship - \$1,000 (\$1,000 for one year) Carmen M. D'Amico, wife of LTC Richard J. D'Amico, Missouri City, TX - Houston Baptist University.

AAAA Graduate Scholarship - \$1,000 (\$1,000 for one year) CPT Erin M. Dowd, Nashville, TN - Tennessee State University.

AAAA Graduate Scholarship - \$1,000 (\$1,000 for one year) Sue A. Macchiarella, wife of MAJ Nickolas Macchiarella, APO AP - Webster University.

AAAA Graduate Scholarship - \$1,000 (\$1,000 a year for one year) SFC Tanya R. Whitney, Woodbridge, VA - Embry Riddle Aeronautical University.

AAAA Scholarship Interest Free Loan - \$4,000 (\$1,000 a year for four years) Scott J. Hammack, son of LTC Stevan J. Hammack, Fort Leavenworth, KS - Kansas State University.

AAAA Scholarship Interest Free Loan - \$4,000 (\$1,000 a year for four years) Cristine M. Tetu, daughter of COL William J. Tetu, APO AE - New York University.

AAAA Scholarship Interest Free Loan - \$4,000 (\$1,000 a year for four years) Yeo (Sarah) J. Chang, daughter of SFC In Duk Chang, APO AP - Syracuse University.

AAAA Scholarship Interest Free Loan - \$4,000 (\$1,000 a year for four years) Kathryn A. McArthur, daughter of COL William S. McArthur, Houston, TX - Texas Christian University.

AAAA Scholarship Interest Free Loan - \$4,000 (\$1,000 a year for four years) Christopher A. Johns, son of CW4 William A. Johns, Wheeling, WV - West Virginia University.

The Association recognizes members and chapters dedicated to membership growth through a variety of membership programs.

NEW SPONSOR PROGRAM

Each member who sponsors a new member each year receives an AAAA coin as a small token of our appreciation and credit toward recognition as an "ACE".

"ACES" PROGRAM

Each member who sponsors a total of five new members each year receives an AAAA Coffee Mug in appreciation of the effort and is eligible to win the AAAA's "TOP GUN" Contest.

"TOP GUN" CONTEST

The member who sponsors the greatest number of new members during the contest year ending December 31 wins an expense paid trip to the AAAA Annual Convention, including airfare, hotel accommodations, registration, tickets to all the social functions, and a \$300 cash award. The winner also receives a plaque presented at the AAAA Annual Convention.

Cash prizes will also be awarded to runner-ups as follows: **2nd Place - \$400; 3rd Place - \$300; 4th Place - \$200; and 5th Place - \$100**

The AAAA is your partner - working together for

FUNCTIONAL AWARD NOMINATIONS

Contact the AAAA National Office for nomination forms for these awards. Membership in AAAA is not a requirement for consideration.

SUSPENSE 1 SEP 97 AAAA AVIONICS AWARD

Sponsored by Cubic Defense Systems, Inc., the AAAA Avionics Award will be presented at the 1997 AEC Symposium to "the person who has made an outstanding contribution to Army Aviation in the area of Avionics during the awards period encompassing 1 August 1996 through 31 July 1997".

AAAA AIRCRAFT SURVIVABILITY EQUIPMENT AWARD

Sponsored by Lockheed Martin, the AAAA Aircraft Survivability Equipment Award will also be presented at the 1997 AEC Symposium. It will be presented "to the person who has made an outstanding individual contribution to Army Aviation in the area of ASE during the awards period encompassing 1 August 1996 through 31 July 1997."

SUSPENSE 15 OCT 97

1997 AAAA AIR/SEA RESCUE AWARD

Sponsored by Lucas Aerospace, the AAAA Air/Sea Rescue National Award will be presented "to the crew or crewmember who has performed a rescue using a personnel rescue hoist that saved the life or eased the suffering of an individual or individuals during the awards period encompassing September 1, 1996 through August 31, 1997".

A candidate for this AAAA National Award must be U.S. Army, Active or Reserve Component, and must have had an active role in an air rescue effort using a personnel rescue hoist.

1997 AAAA TRAINER OF THE YEAR AWARD

Sponsored by Hughes Training Inc., Link Division, the AAAA Trainer of the Year Award will be presented "to the trainer who has made an outstanding individual contribution to Army Aviation during the awards period encompassing September 1, 1996 through August 31, 1997".

A candidate for this AAAA National Award may be a military or civilian nominee and must be actively involved in Army Aviation training.

1997 ARMY AVIATION MEDICINE AWARD

Sponsored by Gentex Corporation, this National Award will be presented "to the flight surgeon or aeromedical physician assistant who best exemplifies the contribution to Aviation during the awards period encompassing September 1, 1996 through August 31, 1997."

A candidate for this AAAA National Award must be U.S. Army, Active or Reserve Component, and must be actively involved in Aviation Medicine support to Army Aviation.

1997 ARMY AVIATION FIXED WING UNIT AWARD

Sponsored by FlightSafety International, the Army Aviation Fixed Wing Unit Award will be presented "to the unit or detachment with fixed wing aircraft that has achieved the highest level of excellence in training, safety, logistics, operations and support during the awards period encompassing September 1, 1996 through August 31, 1997."

A candidate for this AAAA National Award must be a U.S. Army, Active or Reserve Component, unit or detachment with fixed wing aircraft that has met the foregoing criteria.

1997 AAAA AIR TRAFFIC CONTROL AWARDS

Sponsored by AAAA, the Air Traffic Control Awards will be presented "to the facility, company manager, maintenance technician, and controller that have achieved the highest level of excellence in training, safety, logistics, operations and support during the awards period encompassing September 1, 1996 through August 31, 1997."

Candidates for this AAAA National Award may be a military or civilian nominee and must be actively involved in Army Aviation Air Traffic Control.

L u c a s A e r o s p a c e

Through its sponsoring of the annual
AAAA Air/Sea Rescue Award,
Lucas Aerospace salutes the men and women
of U.S. Army Aviation Crews around the world who
save the lives of others, often at great personal risk.

Lucas

VARIETY

AAAA President's Message

MG John D. Robinson, Ret.

It has been a busy summer. Most recently, we completed a successful Army Aviation Symposium in Washington, DC., centered on Virtual and Constructive Simulation. Under the theme "Army Warfighting Experiments and Beyond", General Hartzog gave an insightful perspective on the Army's AWE initiatives, and how we must keep pace with technology but remain focused on the soldier. Colonel (P) Tom Metz, ADC(S) 4th ID, provided an outstanding keynote on lessons learned from a combined arms viewpoint. Panels hosted by MG Jim Snider, PEO Aviation, Mr Jim Skurka, Deputy to the CG at STRICOM, COL Bill Powell, Dir of Training, Doctrine, and Simulation at Rucker and an Industry Panel rounded out superb sessions with considerable Q&A activity. COL Hawk Ruth, Division Chief, Army Models and Simulations, ODCSOPS was our luncheon speaker. Our thanks to the Potomac Chapter and others who contributed to the success. These symposia are central to our dialog as a professional association in a time of enormous change. Please note that this event was videotaped and is available from the AAAA National Office on a lending basis, at no charge to AAAA members. Subjects range from High Level Architecture (HLA) and Synthetic Theater of War (STOW) to Systems Specific Performance at the NTC.

As we approach our October NEB meeting, much has been done on important work for the future of the Association. Many of you have agreed to serve the AAAA in a variety of areas. As we look toward the future, we have remained focused on strategic planning. This has proven to be a difficult task. In researching what other associations are doing to cope with the myriad changes in the current environment, we've learned there is considerable difference between "strategic thinking" and "planning." The former requires broad perceptions, intuitiveness, synthesis, and understanding member needs; this is largely right brain activity. On the other hand, "planning" is focused, analytical, linear, and logical ... getting things organized and mostly a left-brain activity. So we are working to get the left and right brains coordinated.

At the national level, MG Carl McNair, Ret. and COL Tom Johnson, Ret. have taken on the membership challenge. Certainly there are different interests among our members that transcend rank or grade. Essentially, new accessions to Army Aviation tend to be focused on learning about the Army and flying. Those in the ten year category are assessing career opportunities while those past mid-career tend to be committed to the profession. So a range of activities and incentives are needed to meet the needs of all members. The social/camaraderie basis of our Association stands, but there is much more. We are working hard to stay connected to our Branch Chief's Top Initiatives and the overall direction of the Army.

25 JUL 97 - Above and below, members of the Wright Brothers Chapter, Rickenbacker ANGB Columbus, OH, and Co A 1/137th Assault Helicopter Battalion, Ohio Army National Guard sponsored the opening premier of the movie "Air Force One" starring Harrison Ford, at the Lennox AMC Theatres in Columbus. Turnout was phenomenal! Several soldiers from the chapter and battalion were chosen as cast members in the Ramstein Air Force Base scene filmed at Rickenbacker. Alpha Company provided a UH-1H for static display. 2LT Vicki L. Quinn, Chapter Secretary, and member CW3 Daniel L. Carlton, had the honor of flying the aircraft. The event received an overwhelming amount of publicity from the local media and a lot of appreciation from the local population. Some chapter members pictured above include 2LT Vicki L. Quinn, Secretary (front - 4th from left), CW2 Matthew R. Nicol, Treasurer and CPT John W. Villacres, President (kneeling from left to right).

MG Daniel J. Petrosky (left), Chief of Aviation Branch and Commanding General, U.S. Army Aviation Center, presents the Order of St. Michael Silver Award to then BG William S. Wallace, then Commander, National Training Center, at 22 May 97 ceremony. Wallace was recognized in part for his efforts to fully integrate Aviation into combined arms training at the NTC. He has now taken command of the 4th Infantry Division (Mech), Fort Hood, TX.

Below, an AAAA Pikes Peak Chapter awards ceremony was recently held for UH-60 Black Hawk crew members who received Sikorsky Rescue Awards. These awards honored individuals involved in search and rescue efforts within the Colorado mountains. All pilots/crew chiefs belong to Stetson Troop, 4/3 ACR: (back left-rt) CW2 Jeffrey Meyer, SGT Hun R. Jensen, CW2 William Ferguson; (ft left- rt) SPC Jaymen Byrd, CW2 Joel Stevens, 1LT Dawn Sharp. Not shown but also awarded were CW2 Kent Sapp, CW2 Scott Knox, SFC Eddie Barber, and SGT James Shostedt.

AAAA CALENDAR

A Listing of Upcoming
National and Chapter Events

October 1997

- Oct 13. AAAA National Executive Board Meeting, Sheraton Washington Hotel, Washington, DC.
- Oct 13. AAAA Scholarship Foundation Executive Committee Meeting, Sheraton Washington Hotel, Washington, DC.
- Oct 25. The Army Aviation Center Chapter Sixth Annual Chili 5K Race and Cook-Off. Activities include a 5K race, a 1 mi. fun run, a chili cook-off competition, and a variety of activities for families and individuals. Over 3,000 are expected to attend. Registration for cook-off ends 24 Oct 97 - registration for the 5K race and 1 mi. Fun Run remain open until the day of the event. Registration fee for 5K race/1 mi. run is \$10 before 25 Oct 97 and \$12 day of race. Any professional/amateur runner is invited to participate. Teams require minimum of 6 runners. Prizes awarded for the chili cook-off, the 5K race and the 1 mi. fun run. Registration Info POCs: Rich Carroll or Rick Lynch at (334) 255-3395.

November 1997

- Nov 4-6. Annual Aviation Electronic Combat Symposium - Opryland Hotel, Nashville, TN.

January 1998

- Jan 28-30. AAAA Joseph P. Cribbins Product Support Symposium, presentation of Logistics Support Unit and Industry Awards, Marriott Space & Rocket Center, Huntsville, AL.
- Jan 30. AAAA Scholarship Board of Governors Executive Committee Meeting, National Guard Readiness Center, Arlington, VA.
- Jan 31. AAAA National Awards Selection Committee Meeting, National Guard Readiness Center, Arlington, VA.

April 1998

- Apr 1-4. AAAA Annual Convention, Charlotte Convention Center, Charlotte, NC.
